

Hao Liu, P.E., Traffic Engineer

Education:	M.S. Candidate, Transportation Planning and Management, Texas Southern University B.S., Civil Engineering, Beijing Jiaotong, University of China
Professional License:	Oklahoma Professional Engineer 26927
Professional Affiliations:	Oklahoma Traffic Engineering Association, Member Institute of Transportation Engineers, Member

Mr. Liu has been with TEC since June 2006. His responsibilities include conducting traffic impact studies, preparing traffic signal plans, developing signing and striping plans, and conducting traffic simulation studies under the supervision of Professional Engineers. Before joining TEC, Mr. Liu was employed with Beijing Mainsoft Transportation Software, Inc. for two years where he was involved in the development and design of the Port Freight and Logistics Management System used in Beijing, China. During this time, he also maintained the company website and database.
